This price list is correct at time of distribution. Optus reserves the right to make amendments without prior notice. To ensure fulfilment of orders, please check stock availability notices on the online ordering portal at the time of placing your order. Optus makes no representations regarding the suitability of upgraded mobile handsets to your existing accessories.

* With **3G** devices, you can access our 3G (UMTS 2100 MHz / 900 MHz) network. With **4G** devices and a compatible plan, you can access our 3G network plus some or all of our 4G Plus network. Our **4G Plus** network uses multiple frequencies (LTE 700 / 1800 / 2100 / 2300 / 2600 MHz) to provide coverage. The Optus **4G Plus** network is available in all capital cities and hundreds of metro, regional and holiday towns with a compatible device and plan. Coverage availability will vary depending on your device and location.

Check coverage at optus.com.au/coverage based on your address and device.

Phones with the Top Pick for our Regional Coverage badge may get a stronger signal or a more reliable connection in areas with limited mobile coverage compared to other phones that do not have this badge. Coverage availability and quality will vary depending on your location, local conditions and terrain, the distance from our mobile tower and the number of people using the network.

Please contact your Optus account manager or mobility specialist for advice or assistance with selecting the most appropriate device or handset for your circumstances.
